(Supplementary Principle 3-1-3) Sustainability Initiatives

1. Sustainability Initiatives

Since our founding in 1980, FANCL Group has continued to grow as a company that provides solutions to social issues. Our founding philosophy of working to eliminate the 'Negatives' with a sense of justice, has been carried on through to the present day. In 2018, we developed the FANCL Group's Sustainable Declaration: "Building a Bright Future Together" to express our desire to contribute to

building a sustainable society in line with the Sustainable Development Goals (SDGs), and we are engaged in a variety of initiatives. Furthermore, based on our Medium-Term Management Plan "FORWARD 2023," –Conquer Adversity and Shape our Future, which commenced in FY Mar/2022, we have set three priority themes - Environment, Healthy Living, and Local Communities and Employees - with the aim of contributing to the realization of a sustainable society and achieving sustainable growth for the Group. We have organized our priority issues and set quantitative targets to be achieved.

*For details of FANCL Group's Sustainable Declaration, please refer to our website.

<https://www.fancl.jp/en/sustainable/guideline/>

In addition, in October 2021, we established a Sustainability Committee with the aim of placing sustainability at the core of our management and improving our corporate value over the medium to long term by achieving the goals we have set for our priority themes.

2. Investments in human capital and intellectual property, etc., with an awareness of consistency with management strategies and issues

[Investment in human capital]

One of the seven major policy challenges of the 3rd Medium-Term Management Plan, "Forward 2023," is to "Implement human resource development and utilization". FANCL College, our in-house education and training division, is playing a central role in this effort, focusing on producing human resources who can embody our philosophy, who can lead the next generation, who can work globally, who can quickly adapt to the environment surrounding the company (Sustainability, Diversity & Inclusion, IT, Digital human resource training), and who can learn autonomously.

The annual education and training cost per employee (domestic consolidated) for FY Mar/2023 was ¥148,715, and the cost excluding the personnel cost of "FANCL College," the in-house education and training division, was ¥65,232.

For details, please refer to the ESG Data Book posted on the Company's website.

<https://www.fancl.jp/en/sustainable/data/esgdata/>

[Investment in Intellectual Property]

FANCL's Research Institute conducts research and development activities in the areas of beauty and health, from basic research to product development, while constantly keeping in mind FANCL's corporate philosophy of "eliminating negatives" through science. In the 3rd Medium-Term Management Plan, we have set the goals of (1) accelerating business strategies, promoting research on solutions to eliminate negatives and (2) developing new products utilizing Kirin Group technologies and materials. In addition to tackling individual research themes with a broad perspective and flexible thinking, we also actively engage in joint research with universities, manufacturers, and various research institutions in Japan and overseas, with R&D expenses totaling ¥3,408 million in FY Mar/2023. (Cosmetics Business: ¥1,752 million; Nutritional Supplements Business: ¥1,500 million; Other Businesses: ¥155 million). In addition, the Research Strategy Office, a support division of the Research Institute, protects the inventions and research results created as intellectual property (patents) and actively applies for patents. 71 domestic and 2 foreign patents were applied for in FY Mar/2023.

With regard to the application, acquisition, and maintenance of trademarks, the Legal Department discusses future product development and overseas expansion plans with the business divisions and affiliated companies as appropriate, and carries out procedures in consideration of cost effectiveness. As of March 2023, FANCL Group had acquired approximately 2,800 trademark rights in 60 countries and regions. In addition, from the perspective of brand protection, we are also working on countermeasures against counterfeit products, mainly in Asia. We consider intellectual property to be an important management asset, and we aim to maximize the value of our intellectual property through its effective utilization.

3. Enhancing the quality and quantity of disclosure of the impact of climate change-related risks and opportunities on the Company's business activities and earnings, based on the TCFD framework or equivalent framework

FANCL Group announced its support for the recommendations of TCFD* in October 2020. We will take serious measures to counter climate change, deepen our understanding of the opportunities and risks that affect our business, and proactively disclose our efforts to address them.

The TCFD recommendations include disclosure of information on each of the following topics related to climate change: governance, business strategy, risk management, and indicators and targets. Along with disclosing information in line with these four disclosure recommendations, we conducted scenario analysis and assessed the risks and opportunities associated with climate change.

(Principle 4.9) Independence Standards and Qualifications for Independent Outside Directors

On the premise that the independence of our Outside Directors is able to satisfy the requirement of the Tokyo Stock Exchange's requirements for independence, we appoint people to the position of Outside Director who have a high level of expertise and abundant experience, and who can actively come up with proposals in response to the management issues of the Company, and who can

provide management oversight functions in their position.

(Supplementary Principle 4.10.1) Independence, Authority, and Role of Nomination Committee or Remuneration Committee

The Committee examines the appropriateness of the content of the proposals made by the President and Chief Executive Officer and other Directors to the Board of Directors for the nomination or dismissal of the Company's Directors, Executive Officers, special officers, and representative directors of the Company's consolidated subsidiaries (hereafter, "Directors, etc."), succession planning, and other important matters regarding the nomination of Directors, etc., and reports the results to the Board of Directors. In addition, as matters related to the remuneration of Directors, etc., the Committee examines the basic policy of the remuneration systems, the design of specific remuneration systems, and the appropriateness of the content of remuneration (including basic remuneration and stock-based remuneration) for each individual Director, etc., and reports the results to the Board of Directors. The Committee also deliberates on the skills that the Board of Directors should have and the skills of each Director in light of the corporate strategy.

(Supplementary Principle 4.11.1) Stance on Balance among Knowledge, Experience, and Skills, and on Diversity and Size of the Board of Directors, and Policies and Procedures for the Appointment of Directors

Our Articles of Incorporation permit us to appoint up to 15 Directors and up to 5 Audit & Supervisory Board Members.

We currently have 9 Directors, of which 5 are Outside Directors. We appoint Directors who have various forms of knowledge, experience and abilities for the execution of their duties, and who can function effectively in meetings of the Board of Directors.

In the appointment of our Directors, we do not discriminate on the grounds of gender, age or nationality. We carefully consider the personal qualities and business insights of each person, and it is our policy to appoint people who properly understand and practice our Group's founding philosophy of "Eliminating 'Negatives' with a sense of justice" and our management philosophy of "Can achieve more" and can fulfill their duties and responsibilities. Candidates are considered and discussed by the Nomination and Compensation Committee (of which the Chairperson and the majority of Committee members are Independent Outside Directors) which then refers the names to a meeting of the Board of Directors for final decision-making. With regard to Outside Directors, we appoint people who possess a high level of insight and specialized expertise, and who can supervise and advise on management from an objective standpoint based on a wealth of experience. The Nomination and Compensation Committee deliberates on the skills that the Board of Directors should have and the skills of each Director in light of the corporate strategy and reports its findings to the Board of Directors. (Supplementary Principle 4.11.2) Concurrent Positions of Directors

Important concurrent positions of Directors and Audit & Supervisory Board Members are published in our Convocation Notice.

(Supplementary Principle 4.11.3) Summary of the Results of Evaluation of the Effectiveness of the Board of Directors

Every year beginning from FY Mar/2016, each Director and Audit & Supervisory Board Member conducts a self-evaluation of meetings of the Board of Directors, so that we can gain a better understanding of the state of the Board and enable it to operate more effectively. The evaluation is conducted by sending a questionnaire survey to each Director and Audit & Supervisory Board Member that asks them about general matters relating to the Board of Directors, such as the roles and responsibilities of the Board of Directors, its size, composition and diversity, and its state of operation, the role and activities of the Outside Directors, as well as the support system and training for Directors, and communication with stakeholders. The results of the questionnaire were assessed.

In the Board evaluations of FY Mar/2023, we determined that overall, the Board of Directors is operating appropriately, and that the effectiveness of the Board is being maintained.

Result of FY Mar/2023 Board evaluations

1. Meetings of the Board of Directors are held under the leadership of the Chairperson of the Board in an atmosphere that is welcoming of candid comments, and opinions raised are speedily adopted, leading to further comments, thereby creating a virtuous circle.
2. The composition of the Board of Directors is appropriately balanced between executive and non-executive directors. The Internal Directors are appointed in a well-balanced manner in the areas of sales, production, administration, and the promotion of synergies with the Kirin Group. The Outside Directors include lawyers, certified public accountants, and specialists in brand strategy and human resources, and have different business experience and areas of expertise, ensuring a diversity of perspectives.
3. The number of matters to be resolved and their content are appropriate. Themed sessions and advance briefing sessions on matters to be resolved, are conducted in a comprehensive and detailed manner. The advance briefing sessions provide an opportunity to ask questions, helping to deepen understanding, and the supplementary information provided through the discussions at these sessions help to invigorate the discussions during the Board of Directors' meetings.

It was recognized that the Board of Directors should work on the following areas.

- Discuss medium- and long-term management issues
- Further increase diversity, including the appointment of female directors from within the Company, as a medium- to long-term issue
- Create materials that are more concise and focused on important points for management decision making, as explanatory materials are sometimes too detailed

Regarding issues recognized in the FY Mar/2022 evaluation

Efforts were made to improve the following issues identified in the previous fiscal year.

1. Further increase diversity, including the appointment of female directors from within the Company

The Company has set a target of 50% female managers and 30% female senior managers by FY Mar/2024, and continues to implement the following initiatives.

[Ratio of female managers: FY Mar/2022: 47.1% FY Mar/2023: 47.1%]

[Ratio of female senior managers] FY Mar/2022: 25.3% FY Mar/2023: 28.0%]

*Senior managers: Managers at the rank of deputy manager and above (excluding directors)

1. Women's Leadership Training

2. Management School (leadership program for senior managers)

3. Formulation of succession plans to systematically select and train successor candidates who can assume key positions to promote management and business strategies

2. Implement the regular monitoring of management issues discussed at the Board of Directors' meetings

Regular reports were submitted to the Board of Directors on important topics such as the China Supplement Business, BRANCHIC, bosia, and other overseas businesses, and on sustainability and risk compliance.

Based on the results of this evaluation, we will strive to ensure and improve the function and effectiveness of the Board of Directors.

(Supplementary Principle 4.14.2) Measures for Training of Directors and Audit & Supervisory Board Members

When newly appointed Outside Directors or Outside Audit & Supervisory Board Members take their positions, in addition to explaining to them our management philosophy, business details, management strategy, the business environment and issues surrounding our operations, we use outside training courses to enhance their knowledge of their legal roles and duties.

In addition to this training, we make efforts annually to ensure that all Directors and Audit & Supervisory Board Members acquire necessary knowledge and we promote the understanding of their roles and responsibilities. This is done through holding study sessions run by lawyers who cover the Companies Act and the latest situations. We also provide appropriate information about corporate governance and other areas that is necessary, and we endeavor to promote their acquisition of required knowledge and understanding of their roles.

(Principle 5.1) Policy for Constructive Dialog with Shareholders

The systems we have put in place and the initiatives we have taken to encourage constructive dialog with shareholders are as follows.

- In our dialogue with individual shareholders, we place the highest priority on the General Shareholder Meeting. By holding the Meeting on Saturdays or Sundays it is easier for shareholders to attend, so many can be present. At the Meeting, we carefully explain our future business strategies and business prospects, using videos for ease of understanding, and the Director in charge or the Chairman can answer questions from the shareholders. Starting from the 2022 General Shareholder Meeting, we have streamed our General Shareholder Meetings live via the Internet.

<Status of dialogue with shareholders, etc.>

- Business Management Division Directors and Executive Officers engage in dialogue with analysts, institutional investors and others.

- Individual discussions with analysts and institutional investors are held, and the details are reported to our Directors and Executive Officers.

- We hold financial results briefings for analysts and institutional investors (4 times a year) in which the Representative Director explains the outcomes.

- Each of our divisions (IR, Corporate Planning, General Affairs, Accounting, and Legal) collaborate in the release of financial results and in the General Shareholder Meeting and other events, and strive to deliver accurate information.

Actions to achieve management conscious of cost of capital and stock price

In addition to ROE (return on equity), we have designated ROIC (return on invested capital) as a KPI to further promote management that is conscious of cost of capital and the profitability and investment efficiency of each business. ROIC is checked once a year for each business and channel, and the management team discusses measures for businesses that are considered to require improvement in relation to their cost of capital. In the fiscal year ending March 31, 2024, the final year of the 3rd Medium-Term Management Plan, we aim to achieve consolidated net sales of ¥111,000 million, operating income of ¥12,000 million, ROE of 10.5%, and ROIC of 9.5%.

Policy for Determining Remuneration Amounts and Calculation Methods **[Updated]**

Established

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

Matters Concerning Policy on Determining Remuneration Amounts, etc. of Officers, and Calculation Methods

a) Policy details

The remuneration, etc. (the compensation, bonuses and other property benefits received from the Company as compensation for the execution of their duties; hereafter the same), of Officers in the Company is comprised of monthly remuneration that is a fixed monthly amount, and a performance-linked stock based compensation plan that is both a long-term and medium-term incentive. Monthly compensation can be divided into basic compensation and variable compensation. Note however that Outside Directors are only paid basic compensation.

The basic compensation is decided considering the gravity of the role and responsibility, regardless of the results or evaluation of performance. Variable compensation is determined each year based on the achievement rate of the fiscal year plan (consolidated operating income) in the previous fiscal year and the evaluation of personal performance in the previous fiscal year. Consolidated operating income was selected because it is an important indicator for measuring the performance of our business. The amount for FY Mar/2023 was ¥7,843 million.

In the performance-linked stock based compensation plan, the Company grants and pays (hereafter "grants, etc.") Company shares and money equivalent to the conversion of Company shares into cash (hereafter "Company Shares, etc.") to Directors and Executive Officers in proportion to their job positions and the degree to which they have achieved their targets. The system consists of "performance-linked grants" in which the delivery of Company shares, etc. is based on the degree of achievement of the Medium-Term Management Plan, and "fixed grants" in which the delivery of Company shares, etc. is based on the job position of each Director and Executive Officer. The "performance-linked grant" is positioned as a medium-term incentive to realize the Group's Medium-Term Management Plan, while the "fixed grant" is positioned as a long-term incentive to increase corporate value throughout the term of office. The performance-linked index may vary in the range of 0% to 200% and will be proportional to the degree that performance targets in the final fiscal year of the Medium-Term Management Plan are achieved. For "fixed grants," the amount is determined so that the amount accounted for in each fiscal year is a ratio of around 20 to 30% of the annual total of monthly remuneration for Directors and Executive Officers. Please refer to the 43rd Securities Report for details.

b) Method for Determining Remuneration, etc.

To ensure that the Independent Outside Directors are proactively involved in the nomination of Officer candidates and in the setting of Officer remuneration and to ensure the fairness, transparency and objectivity of procedures, the Company established the Nomination and Compensation Committee to be an advisory body to the Board of Directors.

The Chairperson and the majority of the members of the Nomination and Compensation Committee are Independent Outside Directors. In addition to matters relating to the nomination of our Directors, Executive Officers, special officers and the representative directors of our consolidated subsidiaries (hereafter, "Directors, etc.") the Committee considers policy relating to remuneration, etc. for Directors, etc., considers the amount of remuneration for individual Directors, etc., and passes its findings on to the Board of Directors, and notifies the President & CEO, Representative Director.

Kazuyuki Shimada, the President & CEO, Representative Director respects the opinion of the Nomination and Compensation Committee and determines the amount of remuneration, etc., for individual Directors, etc. within the scope set by the resolutions of the General Meeting of Shareholders and the Board of Directors. Furthermore, at the 38th Ordinary General Meeting of Shareholders held on June 23, 2018 the limit to remuneration, etc. for Directors was set to within an annual limit of ¥830 million (for 15 Directors at the time of resolution). Regarding the performance-linked stock based compensation plan, at the 41st General Meeting of Shareholders held on June 26, 2021 it was resolved that the maximum amount of money to be contributed by the Company shall be ¥248 million multiplied by the number of years of the applicable period, and that for the three fiscal years from the fiscal year ending March 31, 2022 to the fiscal year ending March 31, 2024, the initial applicable period, the maximum amount of money to be contributed shall be ¥744 million and the maximum number of shares of the Company to be delivered, etc. shall be 177,000 shares (five directors eligible for performance-linked stock based compensation at the time of the resolution).

With regard to the individual remuneration, etc. of Directors for FY Mar/2023, as it is thought to be appropriate for the President & CEO to decide on the details of remuneration, taking into consideration the status of each Executive Officer's execution of duties while overlooking the Company's performance, Representative Director, President and CEO Kazuyuki Shimada, who was delegated by the Board of Directors to make such decisions within the limit of the amount of remuneration, etc. as per the resolution of the General Meeting of Shareholders, made the decision while respecting the opinion of the Nomination and Compensation Committee. The Nomination and Compensation Committee deliberates on the draft proposals prepared by the Representative Director, President and CEO regarding individual Officers' remuneration amounts, the details of performance-linked stock based compensation and the number of points to grant to each individual, and relays its opinions on to Board of Directors as well as notifying the Representative Director, President and CEO. The Company has received a report that the details of individual director remuneration, etc. for FY Mar/2023 were determined in accordance with the opinions expressed to the President & CEO after deliberation by the Nomination and Compensation Committee, and therefore, the Company believes that it is in line with the Policy on Determining Remuneration Amounts.

Remuneration, etc., for Audit & Supervisory Board Members is within the scope set by the resolutions of the General Meeting of Shareholders and is determined through consultation with Audit & Supervisory Board Members. Furthermore, at the 26th Ordinary General Meeting of Shareholders held on June 17, 2006 the limit to remuneration, etc. for Audit & Supervisory Board Members was set to within an annual limit of ¥60 million (for 4 Audit & Supervisory Board Members at the time of resolution).

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System) **[Updated]**

An executive officer system was introduced in June 1999 to separate the functions of management supervision and business execution. In June 2004 the positions of president, senior managing director, managing director and other executive director positions were abolished and those titles were assigned to Executive Officers. In June 2005 the term of Directors was shortened from 2 years to 1 year to enable the Company to organically build the optimal management team to respond to changes in the business environment. From June 2019 we reduced the number of Directors from 15 to 9, and increased the proportion of Outside Directors, so that management decision-making could be sped up and the management oversight function of the Board be enhanced. Furthermore, from June 2020, we have increased the number of Audit & Supervisory Board Members by one in order to strengthen and enhance the audit system.

Board of Directors

Meetings of the Board of Directors are held at least once a month. The Board is composed of 9 Directors (of which 4 are Outside Directors). In addition, the Company appoints Outside Directors. The employees engaged in the accounting audits for FY Mar/2023 were assisted by 10 certified public accountants, 4 certified accountant examiners and 14 others.

3. Reasons for Adoption of the Current Corporate Governance System **[Updated]**

The Company has adopted the system of having an Audit & Supervisory Board. By appointing 5 Outside Directors and 3 Outside

Audit & Supervisory Board Members, we ensure that our management takes into account opinions and suggestions from a wide range of perspectives outside the Company. In addition, the Audit & Supervisory Board is comprised of auditors (2 internal auditors and 3 external auditors, all of whom are independent directors) who do not have the authority to execute business operations, and they cooperate with the Internal Audit Office to strengthen and reinforce our auditing system. As a result, our current auditing system enhances the effectiveness of our corporate governance and we consider this to be the optimal system for us.

FANCL Kanagawa SDGs Lectures

Together with companies and organizations that support FANCL's Vision, we are providing lectures to elementary, junior high and high school students in Kanagawa Prefecture and

	<p>other regions (Fukuoka, Hokkaido) on the importance of the SDGs based on the sustainability themes that FANCL is working on (Environment, Healthy Living, Local Communities, and Employees). By doing so, we are helping the younger generations, who will lead us into the future, to understand and promote the SDGs and create new hope for the future. This initiative received the "Encouragement Award" at the 12th METI Career Education Awards and the "Judging Committee's Encouragement Award" at the 2022 Ministry of Education, Culture, Sports, Science and Technology Award for Companies Promoting Youth Experiential Activities.</p> <p>For more details on the FANCL Kanagawa SDGs Lectures, please refer to the following website. https://fancl-kanagawa-sdgs.jp/</p> <p>For more information on the progress of our sustainability goals and details of our initiatives, please refer to the following website https://www.fancl.jp/en/sustainable/index.html</p>
<p>Development of Policies on Information Provision to Stakeholders</p>	<p>We have established our Disclosure Policy and are striving to disclose information on a timely basis.</p>
<p>Other</p>	<p>Respect for Human Rights and the Promotion of Diversity Under the slogan "Of course everyone is different" that we formulated in November 2017, we are encouraging diversity. The coming together of different viewpoints, different opinions and different careers is our corporate culture, and has been a management strategy ever since our Company was founded. In FY Mar/2023 among our employees we counted 60 non-Japanese, 78 aged 60 years or older, and 112 with disabilities (*group total). In April 2013 we participated in the United Nation's Global Compact and are focusing on the 4 areas of human rights, labor practices, the natural environment, and anti-corruption.</p> <p>Efforts to Promote the Active Participation of Women The majority of our customers are women, so we need to be able to see things from a female perspective. This is why we have developed a corporate culture that accepts the changes in women's life-stages and works together with them. Our employees use their experiences in child-raising and family living to develop products and services that are a good fit for our customers. In addition, our Representative Director has contributed widely to the movement to help women become more active in society. From 2015 he has been a member of the "woman act." (a local government group in Kanagawa Prefecture that supports the advancement of women), and from 2016 he has been a member of the cabinet-supported group of "Male Leaders Who Will Create a Society in which Women Shine", contributing to the advancement of women in general. FANCL also has a wide range of childcare support programs to ensure that employees can face the prospect of childbirth and child-raising with peace of mind, and can continue to work even after the birth of their child. These programs include spouse maternity leave and childcare support leave, and an expanded system of shorter working hours to assist with childcare. In addition, to promote childcare leave among male employees, we actively encourage those eligible to take childcare leave and inform them of the details of childcare leave-related systems and consultation services via the company intranet and at company-wide meetings.</p> <p>For an overview of childcare support systems and their use, please refer to the ESG Data Book. (https://www.fancl.jp/en/sustainable/data/esgdata/index.html)</p> <p>As of March 31, 2023, women account for 62.2% (557) of our full-time employees, 47.1% (112) of our managers, and 28.0% (23) of our senior managers. We will continue to strive to promote women in our Company. Comparing the average annual income between men and women among regular employees in FY Mar/2023, women earned 77.3% of the amount of men, mainly due to the difference in the ratio of men and women in senior management positions. In FY Mar/2023, we conducted leadership training for female managers, supporting their efforts in promoting women's activities, and working to enable them to demonstrate their own unique style leadership in the field. We will continue to actively promote women to manager positions and provide career support to further accelerate the advancement of women. For more information on the ratio of female managers and the wage gap between men and women, please refer to the ESG Data Book https://www.fancl.jp/en/sustainable/data/esgdata/index.html</p>

In July 2008 we were certified by Japan's Ministry of Health, Labour and Welfare as a childcare supporting company (as part of measures to offset Japan's falling birthrate) and obtained the right to use the Kurumin next-generation supporter's mark. In August 2016 we became certified as a second-stage "Eruboshi company" for our work to promote women's participation and advancement in the workplace.

Our efforts to promote the active workplace participation of women has had an impact on the corporate behavior of other listed companies have been recognized. In FY Mar/2015 we received a Corporate Behavior Award sponsored by the Tokyo Stock Exchange. In addition, we were selected by the Cabinet Office to be the FY Mar/2016 company taking the lead in the promotion women's participation and advancement in the workplace, and we received a Cabinet Office Minister of State for Special Missions (Gender Equality) Commendation. In October 2016 we became certified as a Kanagawa Prefecture Child and Child Care Support Promotion Company.

LGBTQ initiatives

FANCL Group aims to realize a society in which everyone can be themselves and work with vitality, regardless of their sexual orientation or gender identity. We conduct regular trainings every year to promote understanding of LGBTQ and other sexual minorities. Other initiatives include the establishment of partnership regulations in April 2022, whereby same-sex marriages and de facto marriages are covered under the company's benefit system in the same way as legally recognized marriages. In addition, we conduct an LGBTQ awareness survey on all employees, and have also launched an LGBTQ Ally group to create a comfortable workplace, with key LGBTQ Ally members forming project plans and implementing a variety of initiatives themselves.

In November 2022, we received a Gold rating in the PRIDE Index 2022, an index that evaluates workplace initiatives concerning sexual minorities, such as LGBTQ, which was created by 'work with PRIDE', a non-profit organization with the objective of "creating workplaces in Japan where LGBTQ people can work comfortably beyond the standard frameworks of corporations and other organizations.

Work style reform/Promotion of work-life balance

In August 2017 we drew up FANCL Group's Declaration of Health Management. We are working to improve the working environment and are taking initiatives that include the "full-scale roll-out of telework," "encouraging the taking of paid leave," and "mental care measures."

From April 2019 we introduced a new employment category for full-time employees: the "Associate Permanent Employee." This category is for people involved with "care-giving," those having "an illness requiring long-term medical treatment," or those with "disabilities," and lets us create a work environment where people can flexibly work the number of hours or days that they want to.

In addition, in April 2020, we revised the personnel system for permanent employees, extending the retirement age from 60 to 65 years of age. In what is now said to be in the era of the 100-year life, we will work to establish an environment where employees can continue to work with peace of mind and play an active role in the workplace regardless of their age. In addition, in cooperation with FANCL College, we provide second career training for employees in their 50s to consider their future careers, and 82 employees took the training in FY Mar/2021. In FY Mar/2023 we expanded the scope of the program and offered career training tailored to each age group (20s, 30s, 40s and 50s), and 779 employees took the training.

When Audit & Supervisory Board Members request employees be made available to assist them in the operation of the Audit & Supervisory Board or in the execution of other duties, the Audit & Supervisory Board Members will discuss the matter with the Company to make the arrangements. The employees who assist the Audit & Supervisory Board Members will be assigned to the Audit & Supervisory Board. These employees will no longer be under the control of the Directors; the Audit & Supervisory Board Members will have authority over them instead. The Audit & Supervisory Board Members will review these employees. Matters of assignment, transfer and disciplinary action of these employees will be deliberated by the Audit & Supervisory Board Members and decided.
